### TRADING UPDATE

#### POSSIBLE OUTPERFORMANCE OF ANALYSTS EXPECTATIONS

20<sup>th</sup> July 2017

Griffin Mining Ltd (the “Company” or “Griffin”), as expected, will announce its six monthly interim results to the 30<sup>th</sup> June 2017 in early August 2017.

Whilst the first six months of 2017 saw throughput and production levels broadly in line with market forecasts, however, as a result of increased commodity prices and in particular zinc with prices received by Griffin up 90% on that achieved in the same period in 2016, the financial results for the first six months will be above expectations. If this positive commodity price environment were to continue in the second half of the financial and calendar year, annual financial results are likely to be above current market expectations.
